## KLARA SEDLO

Klara Sedlo's works are full of symbols and hidden meanings – sun, symbol for hope or light, lakes, symbol for something deep, marsh-mallows referring to sweetness or shallow memories, trees, devils etc. Klara loves to trigger the subconsciousness of the viewer. Therefore she uses lines and naïve drawings next to realistic painting. Something real and something that is merely thought or feeling, a combination referencing inner and outside worlds.

Klara is currently enrolled in Fine Art Studies at the Academy of Fine Arts in Prague, Czech Republic
